## **WFPA Receives Community Service Award for Flood Relief Efforts**

(Spokane, WA)--At the Association of Washington Business's (AWB) spring board meeting on May 21, 2008, the Washington Forest Protection Association was presented with a community service award for their work relating to the flood relief efforts in southwest Washington after the December 2007 storm event.

At the ceremony, AWB honored the Washington Forest Protection Association "for doing its part to help victims of western Washington's recent, devastating 500 year floods as a leading partner in the Homeward Bound Coalition, which delivers donated manufactured homes for nine uninsured families who lost everything."

For more information about Homeward Bound Coalition's efforts and about the donated homes, visit [www.ruralamericafoundation.org](http://www.ruralamericafoundation.org).
